

## HOW TO RESPOND TO A MODEL COLLABORATION OPPORTUNITY

Crowdhelix's global innovation platform connects researchers, innovators, businesses and investors.

To stimulate meaningful connections, our platform leverages custom-built AI technology to deliver relevant collaboration opportunities to members.

You can access these opportunities by logging in to your Crowdhwelix profile or by keeping tabs on our Weekly Digest delivered to your inbox.

THERE ARE TWO WAYS TO RESPOND TO A COLLABORATION OPPORTUNITY AND BECOME INVOLVED IN A CUTTING-EDGE PROJECT.

### 01. LEAVE A COMMENT

Once you identify a possible collaboration opportunity, scroll to the bottom of the opportunity post and click on a text box titled 'Write a response'.

Simply draft a response in the text box and press publish.

Remember, don't include any confidential or sensitive information in any comment. Depending on the visibility settings selected by the expert who shared the original opportunity, your post could be viewed by anyone accessing Crowdhelix's public-facing homepage.

### 02. SEND A DIRECT MESSAGE

You can respond to an opportunity by sending a direct message to the expert who shared the original opportunity.

All you need to do is click on the 'Send Message' button located in the top right-hand corner of the opportunity post. Simply draft a message and press send.

Unlike comments, direct messages can only be viewed by those who are sending and receiving them.

The Crowdhelix team will only view the contents of direct messages unless under exceptional circumstances (in accordance with our Terms). You must not use the system to "spam" members of our platform.
