Métodos y herramientas para incrementar la participación en propuestas europeas de I+D+i: plataformas colaborativas

Ventajas e importancia de incrementar la participación en proyectos europeos:

1. Permite aumentar la masa crítica de la Universidad y de los Grupos de investigación:
 1. Conocimiento: investigación colaborativa y multi/inter/intra disciplinar , acceso a infraestructuras y recursos de terceros, transferencia de resultados hacia sociedad e industria, visibilidad internacional de la entidad y de los investigadores.
 2. Retorno económico: KPI's, ventajas competitivas, mejora de instalaciones, recursos estables y directos, diversificación de ingresos, recursos centrales.
 3. Capital humano: desarrollo profesional, mejora del liderazgo de IPs emergentes (WP líder), movilidad internacional, atracción de talento, variabilidad de perfiles.
2. Acciones progresivas y de incremento exponencial.
3. Fomenta la innovación y desarrollo tecnológico: proyectos con mayor TRL.

Métodos y herramientas para incrementar la participación en propuestas europeas de I+D+i: plataformas colaborativas

Ventajas e importancia de incrementar la participación en proyectos europeos:

4. Fomenta la creación de spin-offs o start ups innovadoras.
5. Mejora de estándares y buenas prácticas internacionales.
6. Mejora la comunicación y la planificación estratégica.
7. Mejora el conocimiento de otras culturas y contextos, además de realizar investigación sobre temas de interés europeo común.
8. Mejora de la capacidad de gestión efectiva de conflictos.
9. Optimización de los procesos de mejora continua del centro y de los grupos.
10. Aumento de las probabilidades del IP de participar como evaluador nacional y/o europeo (mejora sustancial del CV).
11. Aprendizaje de sistemas de gestión (técnica y presupuestaria), organización de eventos, métodos de comunicación, disseminación, explotación, aspectos de género, gestión de datos, etc.

¿Qué ofrece una consultora como Euro Funding?

1. Paneles de expertos y evaluadores de la CE

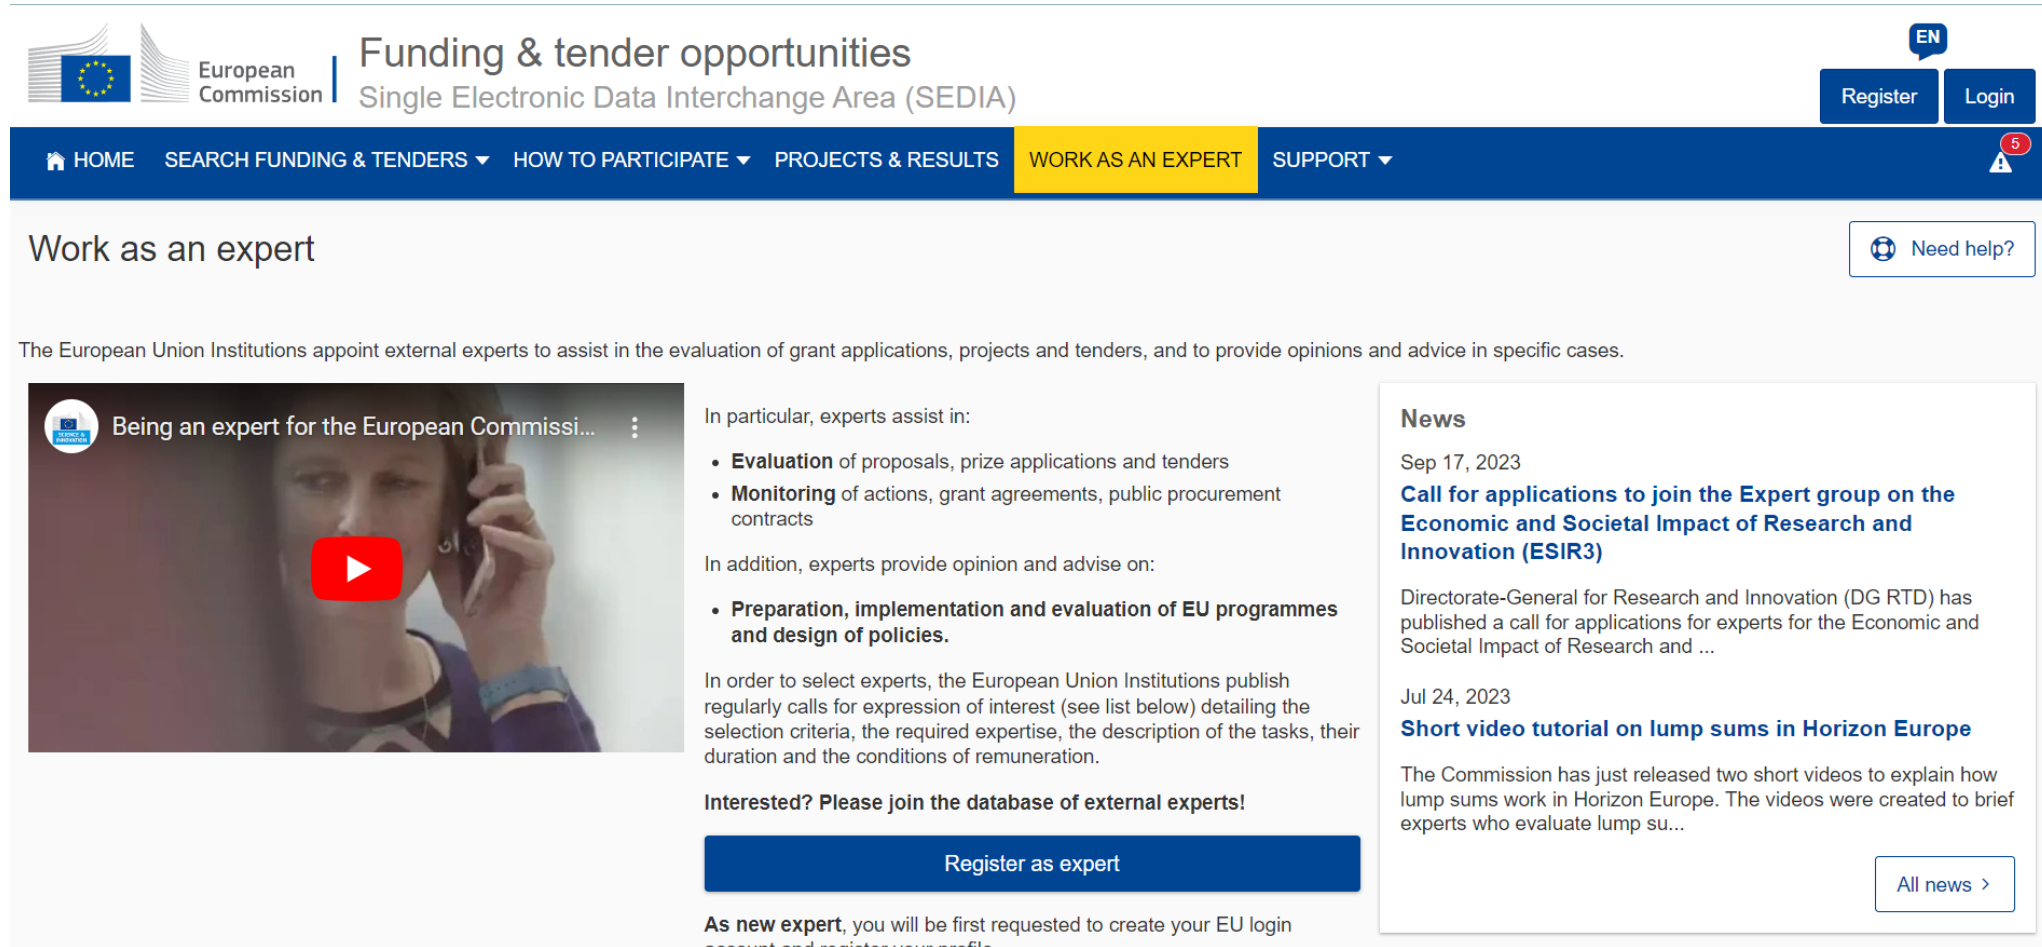

- Expert groups ([link](#))

The screenshot displays the European Commission's website for the 'Register of Commission Expert Groups and Other Similar Entities'. The page features a blue header with the European Commission logo and a language selector set to 'English'. The main navigation menu includes 'Home', 'Expert Groups', 'Meetings', 'Members', 'Calls for application', and 'News'. The current page is titled 'Calls for application' and includes a breadcrumb trail: 'Register of Commission Expert Groups > Calls for application'. On the left, there are 'Search Options' for Year, Status, Title, and Lead DG. The main content area shows 'Calls for application (42)' with a 'Subscribe to calls for applications' link. Below this, there are tabs for 'CALLS WITH DEADLINE' and 'CONTINUOUSLY OPEN CALLS'. A green bar indicates 'OPEN' calls, and a yellow bar indicates 'Publication' and a red bar indicates 'Deadline'. A call for application is listed: 'Call for applications for the selection of members of the Expert Group "Technology Infrastructure"'. The 'Publication' and 'Deadline' bars are positioned above the call title.

Work as an expert

The European Union Institutions appoint external experts to assist in the evaluation of grant applications, projects and tenders, and to provide opinions and advice in specific cases.

Being an expert for the European Commission

In particular, experts assist in:

- **Evaluation** of proposals, prize applications and tenders
- **Monitoring** of actions, grant agreements, public procurement contracts

In addition, experts provide opinion and advise on:

- **Preparation, implementation and evaluation of EU programmes and design of policies.**

In order to select experts, the European Union Institutions publish regularly calls for expression of interest (see list below) detailing the selection criteria, the required expertise, the description of the tasks, their duration and the conditions of remuneration.

The main content area features a green 'HORIZON EUROPE' logo on the left and the project title 'circulaR bioecOonomy Business mOdelS owned by agroCOOPeratives' in large, bold, black text. Below the title is a blue button labeled 'Fact Sheet'. The 'Objective' section contains the following text:

Objective

The bioeconomy roll-out on a large scale needs the establishment of new models and interactions between the primary sector and other stakeholders toward co-participated bioindustries. In this sense, ROBOCOOP-EU proposes a breakthrough cultural change in the agrosector, by deploying effective regional and circular bio-based Business Models for the valorisation of waste streams from 3 agricultural sectors: grape, olive and stone fruit. This will expand real scenarios of commercial opportunities to diversify the economy of small and medium scale farmers and cooperatives, enabling a more versatile biorefinery with a portfolio of biobased products. This model will allow the integration of secondary streams in a holistic closed loop, thus improving the ecological footprint and revenues with social impact. ROBOCOOP-EU will: involve 8 actors of the primary sector in the establishment of biobased value chains; avoid 25-

Find partners

Get tips on how to find partners for your proposal.

If you want to apply to take part in a new IHI project, one of your first tasks will be to find or build an applicant consortium, and to do this, you will need to find partners. This page provides some tips on how to go about this.

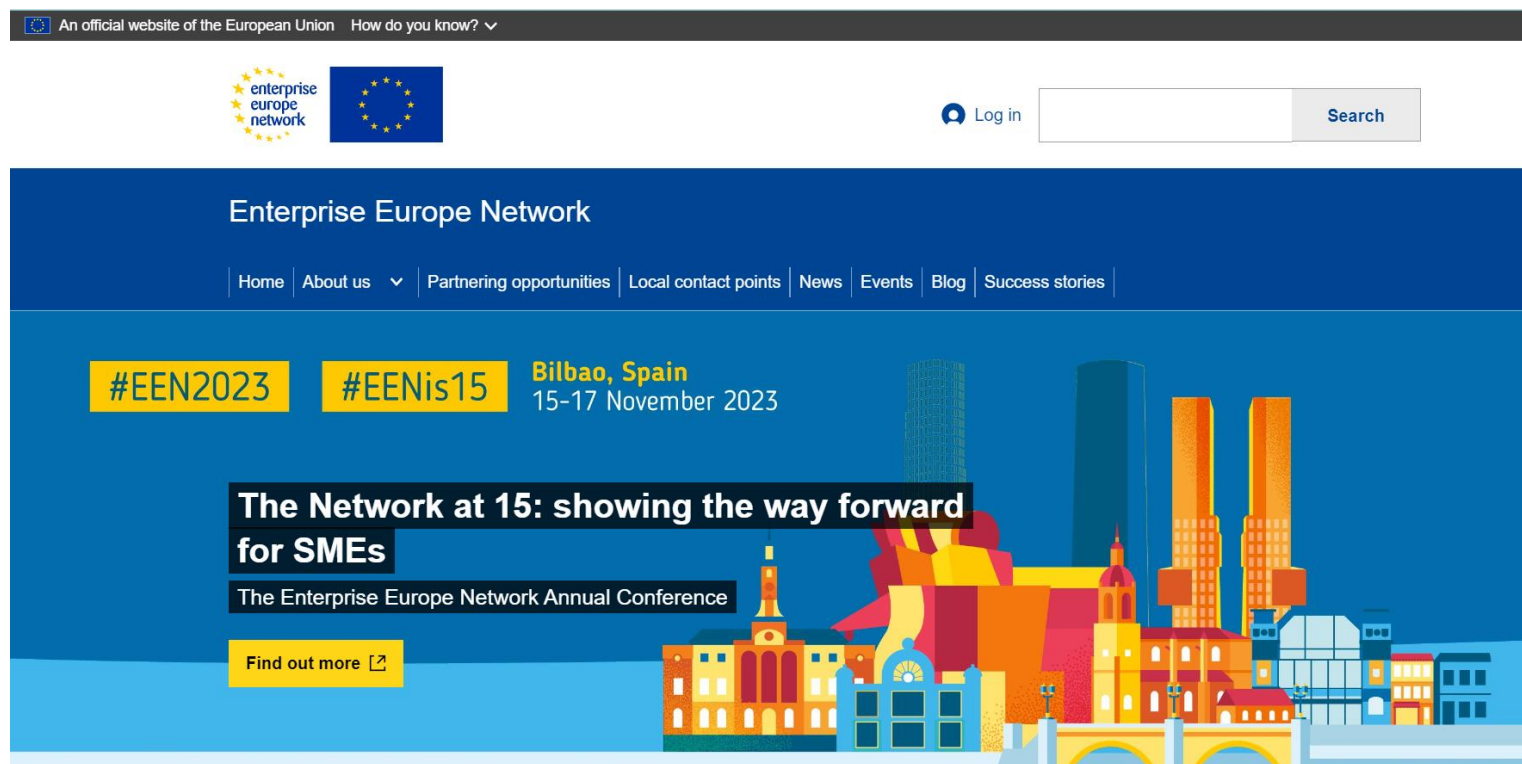

Start early

Putting together a consortium takes time. We publish draft information on call topics several weeks before the call launch. As soon as you see a topic that could be relevant for you, you should get to work.
